# Cloud-based business email & collaboration suite

From **business-grade** email to **TeamChat** covering all aspects of project teamwork including **audio and video conferences**, as well as **document sharing** and **collaborative editing**. All running in our secure cloud and accessible in our uniform experience. For half the cost of the competition.

IceWarp | HUAWEI
OFFICIAL PARTNER

All-in-one solution

## Email at your own domain
Secure business email

Email from custom **@yourcompany.com** address. Individual mailbox is created for every employee or team. Compatible with every email client. Delayed sending and on behalf sending are supported.

TeamChat
Dynamic team collaboration

Faster and more straightforward than email. Chat with your team and guests. Create rooms for individual projects or teams including external contributors. Share documents, brainstorm over emails and create meetings.
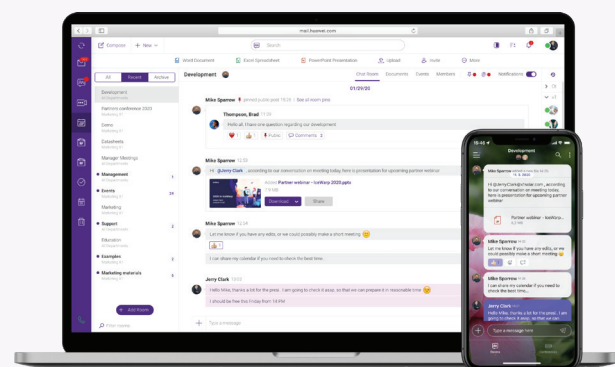

## Conferences
Efficient and swift communication

Secure conferencing that runs in the browser and can host dozens of participants, without installing anything. Handy gadgets like screensharing, real-time chat or moderator are included. Mobile conferencing for Android and iOS is also available.

Documents
For real-time collaboration

Comprehensive office suite for documents, presentations and spreadsheets. MS Office and PDF support is included. Online version includes sharing, real-time collaborative editing and change tracking. An offline version is available as well. Spreadsheets support pivot tables and macros.

Native apps
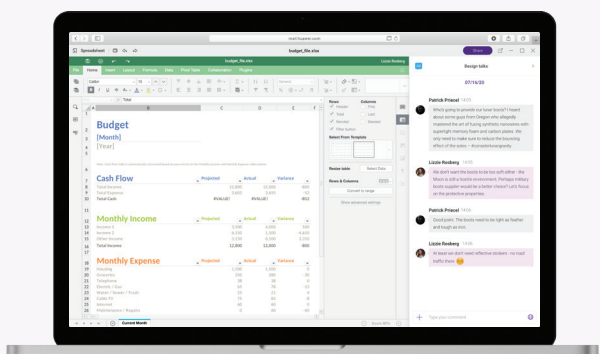

In the browser
Dashboard & WebClient

The Dashboard is IceWarp's opening screen and your gateway to the entire collaboration ecosystem. Start your day by logging into the Dashboard at **login.icewarp.com** or from IceWarp's website and navigate comfortably across all the components. The WebClient provides seamless access to all your emails, chats, calendars and documents.
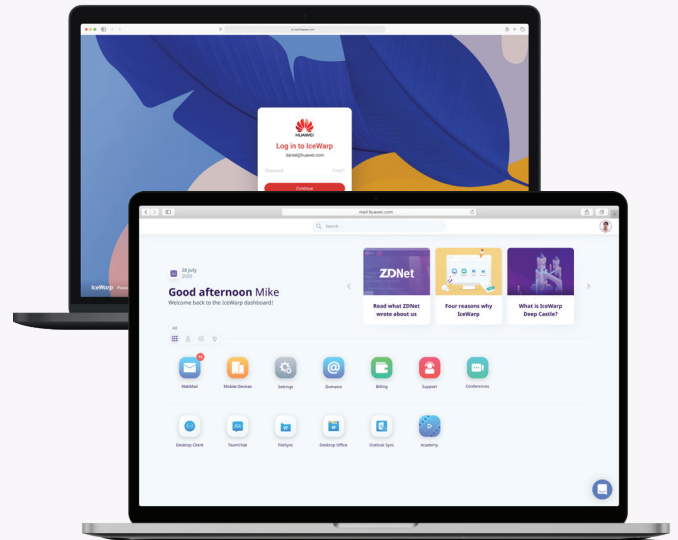

Mobile Apps
TeamChat Conferences & IceChat

Start or schedule calls for up to 200 participants even outside IceWarp. Share files, use in-conference chat or minimize the call to work in TeamChat room. See calls agenda or history. Available in TeamChat app, for Android & iOS.

Desktop Apps
Desktop Client & Desktop Documents

Manage all your emails, chats, calendars and contacts in a native desktop app. And edit text documents, spreadsheets and presentations with comprehensive feature set.
